Subject: Re: Marco Gonzalez v. J&J Pressure Management, Rule 408

Conner, after speaking with my client, determining his damages will be something that I am going to have to do by reviewing the time entries and reviewing the edits to the time entries. Marco does not know precisely how much time was taken, just that his time was edited and reduced, and that his supervisor admitted to reducing not just his time entries, but the time entries of others, all at the direction of the owner.
